

Habitats and food chains?

Draw a line between the creature and its habitat

FROG	wood
CRAB	mountains
FOX	soil
SLUG	pond
EARTHWORM	rock pool
BLACKBIRD	compost heap
FISH	tree
GOLDEN EAGLE	river

Habitats for wildlife are constantly under threat.
Some are used for homes, some are used for shops & some for roads.

In one year 3,200km of hedge are destroyed.
How many Km of hedge will be destroyed in 5 years?

Where will the blackbirds find their food?

.....

.....

.....

.....

There are 45 schools in Blyth Valley.
If a/3 of the schools built a pond in their school grounds.
How many ponds would there be?

Make these lists into a food chain

A rabbit	B grass	C fox	D sunlight
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

A sparrow	B sunlight	C sparrowhawk	D caterpillar	E leaf
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
